

Please do not take away KLOVE radio. Listening to K-LOVE while commuting an hour to work really helps to relieve stress while driving. I also listen to it at work. My daughter loves the music and I feel comfortable with the lyrics the songs contain. There should be more stations like KLOVE that do not promote gangs, shootings, drugs, and other lawlessness. People and constantly blaming their actions on what they see and hear on TV and the radio. The only message they will get from KLOVE is love and trust on GOD.
